

## Transform Your Life And Save The World

### Through The Dreamed Of Arrival Of The Rehabilitating Biological Explanation Of The Human Condition

This is a short, powerful condensation by **Jeremy Griffith\*** of his definitive treatise of the human condition in his book *FREEDOM*.

The genesis of *Transform Your Life And Save The World* lay in Griffith's address at the **launch of *FREEDOM\**** at the Royal Geographical Society in London in June 2016. Beginning with very brief extracts from **Tim Macartney-Snape's Introduction\*** and **Sir Bob Geldof's keynote address\*** at the RGS, it goes on to summarise the content of *FREEDOM* in 3 powerful chapters: 'The Dishonest Biology', 'The Truthful Biology' and 'The Resulting Transformation Of The Human Race'.

In fact, in just 82 pages of sensational world-shaking but at the same time spectacular world-saving TRUTH about human behaviour, Griffith delivers a presentation that is so profoundly liberating, relieving and transforming of your life that this little book may be all you need to read!
